Give The Tiger Some More Punch!

TigerTrak
A Division of Acteon Networks, LLC

Real-Time Accounts Receivable Integration

PeachTrak eliminates the process of manually exporting posted invoices from Tigerpaw CRM+ and manually importing them into **PeachTrak**. Through seamless integration, invoices posted in Tigerpaw CRM+ will automatically be entered into your Peachtree Accounting System.

Real-Time Customer List Integration

PeachTrak seamlessly integrates your Tigerpaw CRM+ Customer Lists with Peachtree. There is no need to perform repeated exports and imports of your Customer Information.

Payment Integration

Payments made to accounts in Tigerpaw CRM+ are automatically exported to Peachtree keeping your records in sync.

Automated Credit Hold

How many times have you serviced a Customer who should be on Credit Hold? **PeachTrak** eliminates this problem by automatically placing these troubled accounts on Credit Hold in Tigerpaw CRM+. **PeachTrak** constantly monitors your Accounts Receivable Aging to determine if customers are surpassing user defined credit thresholds. Customers in violation of these limits are automatically placed on Credit Hold. Those who have satisfied their obligations are automatically removed from Credit Hold.

Advantages

- Automatically export your customers, invoices, and payments to Peachtree from Tigerpaw CRM+
- No more manual batching
- No more servicing delinquent customers
- More information, with less hassle
